

7F

Community Cluster.....7

Landscape Class.....F

Description

Only one county falls in this group and it is distinguished by being urban, socio-economically advantaged, with a high portion of federal lands and a large area burned.

Challenges and Opportunities

Vegetation and Fuels

This is a largely non-forested county where regular use of mowing or grazing may be useful for reducing fuels.

Homes, Communities and Values at Risk

Individual homeowners can be proactive on home defensive actions.

Human-Caused Ignitions

Human caused ignitions are a problem in this county. Reduce accidental and human-caused ignitions through enforcement or outreach.

Effective and Efficient Wildfire Response

Response organizations continue to protect structures, treat fuels and target ignitions as local conditions apply.

Example of a Typical County

Benton County, Washington: This Columbia River county includes the town of Kennewick and has recurrently experienced large fires.

National Priorities

Vegetation and Fuels	Very Low
Homes, Communities and Values at Risk	Moderate
Human-Caused Ignitions	Moderate

Effective and Efficient Response: There is low risk for large wildfires.
