

Community Cluster.....8

Landscape Class.....I

Description

These eastern areas experience a higher amount of demographic stress due to the rural nature of the “bedroom communities” in the Wildland Urban Interface (WUI) area. There are many people in the WUI and higher ignitions due to the higher population.

Challenges and Opportunities

Vegetation and Fuels

There may be an active forest products industry nearby, which could support fuel treatments.

Homes, Communities and Values at Risk

Individual homeowners can be proactive on home defensive actions.

Human-Caused Ignitions

Human caused ignitions are a problem in these counties. Reduce accidental and human-caused ignitions through enforcement or outreach.

Effective and Efficient Wildfire Response

Response organizations continue to protect structures, treat fuels and target ignitions as local conditions apply.

Example of a Typical County

Berkeley County, West Virginia: Berkeley County includes the commuter towns of Harpers Ferry and Martinsburg.

National Priorities

Vegetation and Fuels	Low
Homes, Communities and Values at Risk	Moderate
Human-Caused Ignitions	High

Effective and Efficient Response:
There is moderate risk of large wildfires, less potential for resource benefits.
